

MIGA: Make Iran Great Again

Whitepaper v1.0 — June 2025

Abstract

MIGA (Make Iran Great Again) is not just a meme coin — it's a political, cultural, and financial statement. Inspired by the words of Donald J. Trump and Reza Pahlavi — two voices calling for the rebirth of Iranian greatness — MIGA represents a rising phoenix from the ashes of a suppressed nation. Fueled by hope, satire, and technology, MIGA is a digital symbol of resistance, pride, and revival.

Mission Statement

To empower freedom-seekers, support decentralized movements, and symbolically fund the revival of Iranian identity, liberty, and global dignity — all with the humor and punch of a meme.

Vision

We envision MIGA becoming: - A unifying symbol for Iranian patriots across the globe - A digital token accepted by freedom supporters and satirical activists - A future medium of exchange in a liberated, thriving Iran

Inspiration

"Make Iran Great Again. Return its greatness. Its people deserve it."

— Donald J. Trump

"We will rebuild Iran — not just physically, but spiritually and morally."

— Reza Pahlavi

From these words rises MIGA — the meme coin of the Iranian resistance. A phoenix inspired by freedom, defiance, and the legacy of leadership.

What is MIGA?

MIGA is a satirical yet powerful meme token created to: - Support Iranian digital dissidents - Symbolize the collapse of authoritarian control - Offer hope in the form of humor and finance - Function as a peer-to-peer payment system among freedom allies

This is not a joke — it's a movement with a meme.

Use Cases

- **Digital Tipping:** Reward content creators and activists fighting censorship.
 - **Merchant Payments:** Enable exiled Iranian businesses to accept MIGA.
 - **Symbolic Donations:** Support organizations aligned with liberty, decentralization, and democratic ideals.
 - **Community Utility:** Voting, staking, meme competitions, airdrops, and movement governance.
-

Economic Philosophy

Iranian banks are collapsing. Inflation is a plague. The Rial is a ghost of its past. MIGA proposes: - A decentralized alternative store of value - Community-driven financial ecosystem - A humorous rebellion against fiat dependency

Let's use satire to build sovereignty. Let's use MIGA to rescue Iran's broken banks — one meme at a time.

Token Distribution (Example - to be finalized)

- 50% Public Supply
 - 20% Community Airdrops
 - 15% Freedom Fund
 - 10% Devs & Ops
 - 5% Strategic Partnerships
-

Roadmap Highlights

- **Q2 2025:** Token launch, DEX listing, Website + Twitter campaigns
 - **Q3 2025:** Whitepaper publication, CoinGecko & CMC listings
 - **Q4 2025:** NFT Meme War Contest, Integration with satirical merch stores
 - **2026+:** Foundation support for Iranian NGOs post-liberation
-

Cultural Symbolism

MIGA is a digital protest. The roaring lion and sun on the logo. The phoenix of Persian heritage. The sarcasm of a tweet. The belief that Iran deserves to be great — not subdued. This movement channels the voices of Trump and Pahlavi into something global, loud, and defiantly funny.

MIGA is where satire meets sovereignty.

Disclaimer

This token is for symbolic, cultural, and community-based engagement. It is not endorsed by any government or financial institution. Always DYOR (Do Your Own Research).

Final Words

MIGA isn't just a token. It's a roar. A laugh. A rebellion. A future.

Buy the meme. Be the movement. Make Iran Great Again.
